

American Begonia Society

List of Registered Begonias

The **American Begonia Society** is the International Registration Authority for the names and cultivars of Begonias and periodically publishes and updates information which is essential to identifying characteristics of begonias individuals may be growing.

Hybridizers, register your worthy begonias! Brad Thompson's brochure on registering your begonias will make the registration process easy. The registered cultivar will also be published with a photo in the next possible Begonian.

And remember... formal registration and publication in the Begonian is necessary before the cultivar can be nominated for the Alfred D. Robinson Medal.
