

April 2016 – List of Begonias being grown by ABS Members

This species list includes the species grown by 18 ABS members. If anyone is growing something not on the list, please let me know, and we will add it to the list. If you have sent in your list, and don't see the name of a species you are growing, please look at the end of the list. The names of some of the begonias have been updated. Thank you to those who have participated.

Questions may be referred to: Johanna Zinn, Conservation Chair and Save Our Species Coordinator

*B. acetosa*

*B. acida*

---

*B. aconitifolia*

---

*B. acutifolia*

---

*B. afromigrata*

---

*B. albopicta*

---
